There Is No Class of Flowers so much prized as those which are produced from bulbs. Closely following the disappearance of snow and long before ordinary outdoor flowers are in bloom, we may have, in their perfection, the hardy Snowdrop and Crocus; then the fragrant and stately Hyacinths; a little later the varied and brilliant Tulips and the magnificent varieties of Narcissi. These give an air of distinction and refinement to any lawn or garden, affording much pleasure to all who pass by. We send with every order full directions for both garden and indoor culture.

When to Plant We would particularly emphasize the fact that **fall and not spring** is the time to plant all kinds of spring-flowering bulbs. The larger part of the bulbs offered are ready to ship the second week in September, but a few sorts not until November.

Outdoor Culture The bulbs should be planted as soon after September as possible, so that the roots will make good growth before the cold weather sets in. They may be set out from then until the ground becomes frozen. They require a moderately rich soil that has been well manured for previous crops, or else apply well-rotted cow or sheep manure, or bone meal. Fresh manure is injurious to bulbs. The soil should be well drained. A small quantity of sand or fine coal ashes at the base of each bulb will be beneficial when the soil is heavy. How far apart and how deep to plant the different bulbs is shown in the accompanying chart. When the ground freezes hard, the bed should be covered with three or four inches of leaves or dry litter. Too early and heavy covering starts the tops prematurely. In the spring the covering should be carefully removed.

ODORLESS FERTILIZER FOR POT PLANTS

Excellent for rose bushes, shrubs, etc. This popular insecticide never fails to give satisfaction, and is cheap, effective, clean, harmless and non-injurious to the tenderest growth. It also acts as a valuable fertilizer, reviving plant life. For domestic purposes it rids the house of cockroaches and is a superior wash for dogs and all animals. Prevents poultry lice. You cannot afford to be without Sulpho-Tobacco Soap, if you desire to be successful in plant culture. A trial will give highly gratifying results.

3-oz. Cake, sufficient for one and one-half gallons prepared solution, 10 cents; mailed postpaid, 13 cents.

8-oz. Cake, sufficient for four gallons prepared solution, 20 cents; mailed postpaid, 28 cents.

LENOX IMPROVED SPRAYER

Just the thing to save your plants. Sent complete, including a cake of Tobacco Soap, for only 50 cents, postpaid.

FOR spraying plants indoors and out, for insects and dust, the Lenox Improved Sprayer is the most serviceable for both the house and garden. House plants generally suffer from lack of moisture, such as rain or the morning dew gives them. This produces a misty shower that supplies the plant most naturally and completely, as absolutely necessary to real success with house plants. Spraying with tobacco water under the leaves is very beneficial. It destroys the rose bug and its eggs, in fact all sorts of insects, like the red spider, mealy bug, green fly, mildew, etc., on vines, plants, in the flower bed, strawberry patch, or in the family garden.

Add 50 cents to your plant order and get one of these Lenox Sprayers — You Need It.

For sprinkling clothes it is worth its weight in gold

EARLY FLOWERING FRENCH ROMAN HYACINTHS

A CHARMING class of Hyacinths from the south of France (quite distinct from the Dutch Hyacinths), producing graceful, delicately perfumed spikes of flowers. They force readily in the house. Three bulbs can be put in a four-inch, or six bulbs in a six-inch pan or pot, and as each bulb produces several spikes it makes a beautiful plant for conservatory or house decoration. Their treatment is identical with the Dutch Hyacinth. Roman Hyacinths are among the handsomest and most desirable of all bulbs for early winter flowering in the house or conservatory. They begin to bloom very quickly, and throw up great masses of sweet and lovely flowers almost before other bulbs get started. They are absolutely sure to bloom. Though recommended for house culture, they are quite hardy, and when planted in open ground will make an elegant display of lovely flowers very early in the spring.

DON'T FAIL TO PLANT A QUANTITY OF THEM

The bulbs here offered are the true French and Italian stock, imported by us direct from the growers and measure from twelve to fifteen centimetres in circumference.

SINGLE WHITE—Elegant, fragrant, waxy-white flowers, of surprising beauty.

SINGLE BLUE—Extremely pretty, and in novel contrast with all other varieties.

SINGLE PINK—Fine flowers of a beautiful blush-pink color.

PRICE, 5 CENTS EACH; TWELVE FOR 50 CENTS, POSTPAID

Grape Hyacinths

Very pretty, producing flowering spikes about six inches high, with little round bells so arranged as to resemble a bunch of grapes. Admirable for permanent beds and edgings and partially shaded situations, where they should be planted in groups of one dozen or more, where they will soon spread and being perfectly hardy will take care of themselves. They are very pretty when grown six in a pot in the house for winter flowering.

BLUE—Price, four for 5 cents; 15 cents per dozen.

WHITE—Price, three for 5 cents; 20 cents per dozen.

Feathered Hyacinth.

FEATHERED or COCKADE Hyacinths

A real curiosity. First, a frizzled cockade-like spike an inch or two in length appear above the soil, and as it slowly rises, on its long stalk it becomes five or six times as long as at first, developing into a long feathery blue plume, and lasting for weeks in that condition. One of those pretty, odd things that everybody likes. Perfectly hardy in the garden and fine for pots. Price, two for 5c; six for 12c; twelve for 20c.

We Allow 20 Cents' Worth Extra for Each \$1.00 If Bulbs Go By Express, Not Prepaid.

Dutch Hyacinths

**Large,

Bulbs of
Finest
Quality**

Outdoor Culture The bulbs may be planted any time from October to December—the earlier the better. They succeed in any good, well-drained garden soil. Set the bulbs so that the tops will be three or four inches below the surface and six to ten inches apart. Before very severe weather comes on, cover the beds with straw, leaves or manure, to protect them from the frost, but care should be taken that this covering is not too thick, as the bulbs are as likely to be injured by being kept too warm as by freezing; this should be removed in March, or when danger from hard frost is past.

**FOR FURTHER DIRECTIONS SEE "HINTS ON BULB CULTURE"
SENT WITH EVERY ORDER**

For winter and early spring flowering nothing surpasses the Hyacinth. It is sure to bloom and give satisfaction in the house during the winter or in the garden in early spring. Its large spikes resemble nothing else in cultivation. Rather than offer a long, confusing list of varieties, we have carefully selected twelve each of Singles and Doubles, embracing all the shades of this beautiful flower, each one being the largest, strongest and best of its color.

TWELVE Best Named SINGLE HYACINTHS

WE consider the Single Hyacinths more useful and valuable than the double varieties. They are better for forcing, more vigorous in growth, and produce stronger spikes of bloom, which are generally of better substance. Price, 10 cents each, any six for 50 cents, or the full set of twelve for \$1.00, mail or express prepaid.

ALBERTINE—Pure white, very large, compact spike, fine for early forcing.

GERTRUDE—Deep rose, large compact truss. A splendid and popular variety for bedding and forcing, as it stands very erect.

Bedding Hyacinths.

Early Flowering Named Tulips

TULIPS make one of the best, brightest and most attractive and satisfactory flowers for the table that can be used. They will also last as long or longer than any cut flowers which are used for decorations. A bed of assorted Tulips used for this purpose will furnish a continuous feast for weeks during the early spring, when there are practically no other outdoor flowers in bloom. The culture of Tulips is the same as that of Hyacinths, except that the bulbs should be planted about three inches deep and four to six inches apart. Tulips are perfectly hardy, so only a slight protection is required from extreme cold and sharp winds.

NOTE—The varieties marked with a * are equally good for pot culture and for bedding. The letters D, M or T indicate the comparative height when grown outdoors, whether Dwarf, Medium or Tall. Each bulb is wrapped and labeled true to name.

Beds of Tulips Shown on Back Page of Cover

THIS DESIGN shows what may be done by combining two or more varieties of Tulips. Many showy beds, suitable to space available, can be made, and we suggest liberal plantings of this kind. The beds shown in the photograph are composed of the magnificent early flowering single varieties, Kaiserskroon, McKinley and Queen of Whites, all described on preceding page, planted five inches apart each way. This will give you an idea how many bulbs will be required for the space you wish to use, and we shall be glad to furnish as many as you want at the rate of \$2.50 per 100, all first size bulbs, mail or express prepaid. If double varieties are preferred, we suggest Rex Rubrorum, scarlet, La Candeur, white, and Queen of Yellows. We will send these at same price. We anticipate a large demand for these Tulips, and suggest that you order early, before we are sold out.

Superfine Mixtures of EARLY FLOWERING TULIPS

They are excellent bulbs, and will bear handsome blooms. Double and Single collections are kept separate. Several hundred bulbs at the quotations below involve less expense than is required to secure a few summer bedding plants, and in the matter of display they are fully as valuable during their season as an equal number of ordinary blooming plants.

LATE OR MAY-FLOWERING COTTAGE GARDEN TULIPS

THIS beautiful class is now very popular. They are quite distinct from the early-flowering sorts offered on the preceding pages, coming into bloom two to three weeks later than the early flowering types, and extending the Tulip season over a period of four weeks or more. On account of their extreme hardiness, they are specially adapted for the permanent hardy flower border, where they should be liberally planted in clumps or masses. They may also be naturalized in grass, wild gardens, etc. For bedding they are superb, while as cut flowers, having long stems with flowers of great substance, they stand in perfect condition for a long time. In planting, the bulbs should be set a little deeper than early Tulips, a covering of four inches being about right.

Leading Varieties of Garden Tulips

FAIRY QUEEN—Rosy-hello-trope with a broad yellow margin; color is absolutely unique. The flowers reach an enormous size, last very long and have long, graceful stems, making it ideal for bouquets. Price, 4 cents each; six for 20 cents.

GESNERIANA SPATULATA—The grandest Tulip in existence. Tall growing and late blooming, with large, long leaves and tall, erect flower stalks, which support great waxen blooms, larger than teacups, of the most vivid, glossy coral-red, each flower showing a deep blue-black blotch at the base that further enhances its beauty; in bloom a long time. Price, 4 cents each; 12 for 35c.

GOLDEN CROWN—Like Gesneriana, except its grand blossoms are of a fine yellow color, banded with bright red. Price, 3 cents each; six for 15 cents.

OUR COLLECTION EMBRACES ALL THE BEST TYPES OF THE GARDEN TULIP AND YOUR ORDER SHOULD INCLUDE AT LEAST A FEW OF THESE MOST SATISFACTORY BULBS

Giant Darwin Tulips.

ISABELLA (Blushing Bride)—Opens creamy-white with crimson-rose border, turns rosy-pink, never looks faded, color keeps changing all the time, flower of immense size, largely used for outside, but can be forced by middle of February. This is one of the most useful Tulips. Price, 4 cents each; six for 20 cents.

PICOTEE (Maiden's Blush)—This is one of the finest of late Tulips, pure white, with brilliant rose edging, large flower on stout stem. A dainty flower of exquisite beauty. Price, 3 cents each; six for 15 cents.

SALMON QUEEN—Beautiful salmon, very tall and fine. A large, long-stemmed flower of finest substance; fine bedder and unequalled for cutting. Price, 3 cents each; six for 15 cents.

WHITE CROWN—Large white reflexed petals margined rosy-red, a very attractive flower. One of the finest. Price, 4 cents each; six for 20 cents.

Giant Darwin Tulips

THE new Giant Darwin Tulips are late May-flowering Garden Tulips and produce very large bowl-formed flowers of symmetrical shape and lasting wax-like substance, on tall, strong stems, two to three feet high, and are exceedingly beautiful and effective grown in groups, in the shrubbery or herbaceous border, or in gardens with a background of greenery. They by far surpass in color and brilliancy anything before known in Tulips. They include almost every conceivable color and shade, from the daintiest blue to the darkest violet, from soft rose to the most brilliant red, and from light brown to what is believed to be the darkest black in the floral world.

Price, 4 cents each; three for 10 cents; 35 cents per dozen.

BARONNE DE LA TONNAYE—A long and beautiful flower; clear carmine-rose at the mid-rib, toning off to soft pink at the edges; base white, tinged blue; height 24 inches. The leading bedder of the pink Darwins, keeping its brightness and standing upright to the last, no matter what kind of weather it is in.

CLARA BUTT—A large flower of remarkable beauty; coloring an exquisite shade of soft salmon-pink shaded rose; height twenty inches.

KATE GREENAWAY—One of the largest and latest of all the Darwins. A grand big flower of white suffused with lilac; tall grower.

NAUTICAS—Purplish-rose, with dark violet base shaded bronze; very large flower on a tall stem.

OUIDA—Bright crimson-scarlet. A variety of unsurpassed qualities for bedding, but too little known. The unusually tall and strong stem holds the big flower up perfectly. The flower lasts very long and the bright crimson color never fades. One of the brightest and best of the Darwins.

THE SULTAN—Rich, glossy black maroon; one of the best dark varieties.

WHITE QUEEN—White. Can be called the only white Darwin. It opens rosy-white, but passes off pure white. One of the most popular varieties, which can be easily forced.

Mixed Darwin Tulips

Our supply of these comes from a specialist who grows over fifty sorts, most of which are represented in this mixture. Price, 3 cents each; 30 cents per dozen; \$2.50 per hundred.

Parrot or Dragon Tulips

The most beautiful and interesting class of late flowering Tulips, which should be in every garden. The flowers are very large and perfect in shape, the petals are corrugated and toothed, while the color is the most striking combination of crimson and golden-yellow, streaked and edged with green, resembling the plumage of a parrot, whence these Tulips derive their name. A bed of these makes a gorgeous display, paying a hundredfold for any trouble that may be bestowed upon them. Fine large bulbs, mixed colors, price, 3 cents each; 25 cents per dozen; \$1.75 per hundred.

Bed of Fifty Large FLOWERING TULIPS For \$1.00

We have made this same offer for several seasons, and it is becoming more popular each year.

All Seasons' Mixture

THIS collection will contain a splendid mixture of Single and Double Early, Single and Double Late, Parrot and Darwin Tulips, and will include many of the above named varieties. The great advantage gained by ordering this collection is that it will produce flowers during a much longer period than any other collection. For a period of from fifteen to twenty-five days the bed in which you plant them will be ablaze, and will present all the colors known among Tulips. We can most heartily recommend this collection to our patrons. It will make a magnificent circular bed three and one-half feet in diameter.

Narcissus, Daffodils and Jonquils

THE FLOWER OF THE POETS

THERE are no hardy bulbous plants which have more points of merit than the Narcissus or Daffodils. Perfectly hardy, growing and doing well in almost any and every position, sun or shade, moist or dry. They turn our gardens, lawns and woodland walks into gorgeous masses of gold and silver, with a fragrance that is enchanting. They are all of the easiest culture, perfectly hardy, and can be grown in any light garden soil. When grown as pot plants in the house they can be brought into bloom at Christmas, and by planting at different times, will bloom continually from December till April. Excepting the Polyanthas varieties, offered on next page, they are perfectly hardy, even in the Northern states; growing and doing well in almost any and every position, in sun or shade, moist or dry. They will succeed best, however, in a thoroughly drained, tolerably rich soil. If the position is one partially shaded from the hot sunshine in the spring, the flowers will retain their beauty for a much longer period than if more exposed.

LARGE TRUMPET NARCISUS

This type is the showiest of the genus, and also the most useful, growing easily either indoors or in the open ground.

NOTE—In describing Narcissus it is usual to give the color of the trumpet or crown and the color of the perianth or petals surrounding the trumpet.

Two-Colored Varieties, White and Yellow

AJAX PRINCEPS—Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphur, with an immense rich yellow trumpet. Price, 4 cents each; six for 20 cents.

MAXIMUS—A grand, deep golden-yellow flower. For cutting this variety is unexcelled; succeeds best in a heavy moist well-enriched soil. Price, 6 cents each; six for 30 cents.

TRUMPET MAJOR—(Single Van Sion.) A large and shapely flower of a rich yellow color throughout. Comes into bloom early and is excellent for forcing, bedding or naturalizing. Price, 4 cents each; six for 20 cents.

All White Trumpet Narcissus

MRS. THOMPSON—A new and extra fine pure white variety, large and handsome, with an elegantly frilled trumpet. It is a strong grower, early and free bloomer, splendid for pot culture, forcing and the garden border. Price, 6 cents each; five for 25 cents.

MADAME DE GRAAFF—The most beautiful of white varieties. Both trumpet and perianth are clear white; one of the best for forcing; magnificent. Price, 15 cents each; two for 25c.

FIREFLY—Bright yellow perianth, broad, well expanded, orange-scarlet cup, very striking. You must have a few of them. Price, 4 cents each; six for 20 cents.

DUCHESS OF BRABANT—Perianth white, cup canary. Free blooming; very beautiful. Price, 5 cents each; six for 25 cents.

The True Poet's Daffodils

POETICUS—The "Pheasant's Eye," or "Poet's Narcissus," pure white flowers with orange cup edged with crimson. Splendid cut flower. Price, four for 10 cents; 25 cents per doz.

Daffodil Double Von Sion.

DOUBLE DAFFODILS

DOUBLE VON SION—The grand old-fashioned double yellow Daffodil—extra fine for cutting. Single, star-like perianth, and long, double trumpet, filled with beautifully crimped petals. Deep golden, very hardy outside, and blooms freely in pots in the house. Everybody should plant this one, sure to bloom anywhere and everywhere. Price, 4 cents each; 40 cents per dozen.

SULPHUR (or Silver) PHOENIX—"Codlins and Cream." Large creamy-white double flowers with sulphur nectary. Exquisite corsage flower, and fine for growing in pots. Price, 5 cents each; six for 25 cents.

POLYANTHUS NARCISSUS

Or Bunch-Flowered Daffodils.

The Polyanthus varieties of Narcissus are not only beautiful but deliciously sweet-scented, and of the easiest culture, suitable for window garden, conservatory or garden, very free flowering and continuing long in bloom. Their tall spikes of bloom bear from six to one dozen flowers each. The pure white petals and gold cups of some varieties, the yellow with deep orange cups of others and the self white and yellows render them great favorites. They are not quite so hardy as the other types of Narcissus and therefore should be carefully protected in cold climates when grown in the garden. South of the freezing belt they are splendid for gardens.

Paper-White Grandiflora

This is the earliest of all, blooming by Christmas, and with its long-stemmed clusters of starry-white flowers—much larger than the old variety—is indeed most beautiful; very fragrant also. This variety is perhaps more largely forced for cut flowers than any other, millions of them being used for the large flower markets of the world. Price, 4 cents each; six for 20 cents.

Early Double Roman

A splendid sort, good grower, with tall stems and fine clusters of extra large flowers. Outer petals creamy-white. Center of flowers filled with small white and deep orange petals, while the whole flower is so sweet that one cluster will perfume a whole room. Price, 5c each; six for 25c.

Grand Soliel d'Or

A charming rich yellow flower with deep reddish cup. Thousands of this variety are grown in Scilly Isles for sale in the London market. Flowers are almost identical with the Chinese Sacred Lily except in color, and may be grown in water like the Chinese variety. Price, 6 cents each; six for 30 cents.

Grand Monarque

Large pure white, with lemon cup; extra fine. This variety is one of the finest of all Polyanthus Narcissus. Price, 6 cents each; six for 30c. SET OF ONE EACH OF THE ABOVE NAMED POLYANTHUS NARCISSUS FOR 20 CENTS, TWO OF EACH FOR 35 CENTS.

Chinese Sacred Lily

Oriental Lily or "Joss Flower"—The most satisfactory of all winter-blooming bulbs. No home should be without one. Nothing is easier cared for or gives as great abundance of deliciously-scented bloom. Fill a bowl or similar vessel with pebbles in which place the bulb, setting it about one-half its depth, so that it will be held firmly, then fill with water to the top of the pebbles, and place in a warm, sunny window. The bulb will at once commence rapid growth and bloom in four or five weeks. The bulbs are so large and have so much vitality they can be kept perfectly dry all winter and be planted at any time when the flowers are desired. Price, extra size, 15 cents each; two for 25 cents.

NOTE—Bulbs offered are large, solid and well matured. Can be relied upon to be true Chinese, superior to those grown elsewhere.

Narcissus Jonquilla, or Jonquils

Much prized for their charming golden and deliciously sweet-scented flowers; perfectly hardy, and flowering very early in the spring. Admirably adapted for winter forcing.

SINGLE JONQUIL—The well-known favorite, delicately scented and beautiful for forcing. Rich yellow, very fragrant. Price, three for 5 cents; 15 cents per dozen.

DOUBLE JONQUIL—Heads of small but very double deep golden-yellow flowers, powerfully scented and good for forcing. Price, 3 cents each; 30 cents per dozen.

CAMPERNELLE REGULOSIS—Large, six-lobed yellow flowers, four to six on a stem; fine for forcing, and the one generally preferred by florists. Price, three for 10 cents; 25 cents per dozen.

CROCUS First Gay Flowers of Spring

Large Flowering Varieties

Beautiful for Growing in Pots, Among the EARLIEST to Bloom on the Lawn in the Spring.

AMONG all the pretty flowers of spring, none is greeted with a heartier welcome than the Crocus. Their flowers are lovely in form, and of the brightest colors—pure white, golden-yellow, purple, pink and variegated. They are entirely hardy and like a rich, dry soil and sunny location. They are suitable for planting in beds and borders, also for edging in ribbon lines of any desired color, for planting in the grass in lawn or yard. Crocus are also very highly valued for house culture. They bloom very quickly and are so cheap that all can afford to have them. Ours are the improved strains, noted for large flowers and brightest colors. Plant in October or November.

Directions for Planting

With a trowel or spade make a slanting opening about two inches deep, put in the bulbs, then with the foot press back the sod. This is an easy way to plant flowers that will be a sheet of bloom almost before the grass is green. They will care for themselves, blooming early amid the grass, and dying down to the bulb in ample time to be entirely out of the way of the lawn mower.

CHOICE NAMED GIANT FLOWERED DUTCH CROCUS—Extra Large Bulbs

The following named varieties are especially adapted for pot culture, because of their large, vigorous bulbs. Price, 15 cents per dozen, 85 cents per hundred.

ARGUS—The best striped.

CLOTH OF GOLD—Brown and yellow.

CLOTH OF SILVER—Silvery-blue.

KING OF THE WHITES—Extra large

long flowers, the largest white Crocus.

LORD SALISBURY—Blue, white topped.

PURPUREA—Extra large, dark purple.

YELLOW MAMMOTH—Large bulbs, producing large, golden-yellow flowers.

Giant Crocus in Colors—White, Blue, Striped, Yellow or All Colors Mixed, All Large Bulbs, 12 Cents Per Dozen, 75 Cents Per Hundred, Postpaid.

Chionodoxa Luciliae (GLORY OF THE SNOW)

These bulbs are very popular, and deservedly so, for their lovely blue and white flowers, produced in long sprays, are

seen in the garden among the earliest spring flowers—sometimes even before the snow has disappeared. The bulbs are perfectly hardy and make a fine display when planted in masses outdoors. For window culture they are fully as charming as are Freesias. They bloom very early, commonly by Christmas. Selected bulbs.

Price, 3 cents each; 25 cents per dozen.

Scilla Sibirica.

SCILLA SIBIRICA

The Siberian Scilla, or Squill, has flowers of a lovely ultramarine blue color, borne in graceful spikes. In the house it blooms early, like the Roman Hyacinths, and forms a beautiful contrast with them. In the open ground they are quite hardy, and especially fine planted in small beds or with Snowdrops, and, like them, frequently blooming before the snow has gone. Price, 2 cents each; 20 cents per dozen.

SCILLA ALBA

This has exactly the same flower as Scilla Sibirica, excepting that it is pure white. Price, 2 cents each; 20 cents per dozen.

IF BULBS GO BY EXPRESS, NOT PREPAID, YOU MAY SELECT 20 CENTS EXTRA FOR EACH \$1.00.

OXALIS

An unrivaled winter flowering pot plant of the easiest culture, succeeding with everybody.

Winter blooming Oxalis are always sure to please. Plant five or six bulbs in a six-inch pot. They commence growth immediately after planting and need not be set away to form roots like most other bulbs.

Grand Duchess Oxalis

THERE is no doubt about its being one of the most beautiful and taking winter flowers it is possible to have. Blossoms immense, three inches across, borne well above the foliage; leaves large, clover-shaped and handsome. A most persistent bloomer, remaining constantly in flower from November to June. We have three colors to offer, bright pink, lavender and pure white.

GRAND DUCHESS PINK—Enormous size, bright rosy-pink. Finest recent novelty, and has been widely advertised.

GRAND DUCHESS WHITE—New; pure snow-white. A grand contrast to the above.

LAVENDER—A fine large flower of a unique lavender color. Plant has a branching habit, not so compact as the white or pink.

Price, three for 10 cents; six for 15 cents; or 25 cents per doz.

Bermuda Buttercup Oxalis

A fine, robust-growing, large flowering sort from Bermuda. Blooms in enormous panicles, each flower being as large as a silver half-dollar, and of a clear, bright yellow color. Easily grown in any window and a most satisfactory winter bloomer. Price, four for 10 cents; 25 cents per dozen.

Other Oxalis

Price, five for 10 cents; twelve for 15 cents.

MULTIFLORA ALBA—A good sort, producing pure white blossoms.

BOWIE—Extra large, brilliant red blossoms and luxuriant foliage. One of the very best.

CERNUA—Very large yellow flowers, in clusters, an extra sort.

VERSICOLOR—The prettiest of all. Beautiful foliage and compact growth, with an abundance of large, pearly-white blossoms, each petal having a wide border of brilliant scarlet.

MIXED OXALIS—Containing a large number of varieties. Price, 8 cents per dozen.

GIANT SNOWDROPS

The Charming Snowdrop is One of the First Flowers to Herald the Approach of Spring.

It can frequently be seen in bloom when the ground is white with snow, as it takes every advantage, and hastens to display its graceful, snow-white bells before winter has disappeared. In conjunction with Chionodoxa and Scilla, a matchless effect can be produced. As the bulbs are small, they should be planted liberally in order to obtain immediate results. Banks, grassy slopes, edging, or rock-work will suit all of these bulbs. They should not be disturbed often if a fine display is desired.

DOUBLE SNOWDROP—(*Galanthus Nivalis* fl. pl.) Flowers perfectly double, pure white. Price, two for 5 cents; 20 cents per dozen.

GIANT SINGLE SNOWDROP—(*Galanthus Elwesii*.) The largest and most beautiful, flowers snow-white, with emerald-green tube. Price, three for 5 cents; 15 cents per dozen.

ORDER EARLY AND PLANT EARLY—Our bulbs are usually all sold out by December 15th. To bloom well in the spring, Hyacinths, Tulips, Narcissus, etc., should be planted in October and November.

IF BULBS GO BY EXPRESS, NOT PREPAID, YOU MAY SELECT 20 CENTS EXTRA FOR EACH \$1.00.

HIGHLY ornamental winter, spring, and summer flowering plants, having both single and double flowers, the colors of which are wonderfully beautiful, running through shades of blues, scarlet, rose, white, lavender, etc. For cutting they are grand. They are splendid for pot culture, flowering in the house or conservatory. Four roots to a five-inch pot, kept cool and secluded until growth appears, will produce handsome decorative specimens for winter use. They are not quite hardy; planted from October to November, they will bloom in early spring, but need covering with litter during winter for protection.

ANEMONE, Single—Mixed; brightest colors. Price, two for 5 cents; 20 cents per dozen.

ANEMONE, Double—Mixed; best assortment of colors. Price, 3 cents each; 25 cents per dozen.

IXIAS

The graceful flower spikes of the Ixias remind one of Gladiolus, but the flowers are very distinct, being round and well opened. Their brilliant colors and vividly contrasting markings have made them quite popular. For pot culture, plant six in a five-inch pot, and treat as Hyacinths. For outdoor culture they should be planted in a somewhat sheltered situation and protected with leaves or straw.

MIXED SORTS—Many varieties of rich shades and colors. Price, three for 5 cents; 15 cents per dozen.

Freesia.

Winter-Blooming Freesias

FREESIA REFRAC TA ALBA—The flowers are two inches long and about the same in width, and borne in clusters of six to ten. The body of the flower is pure white, with lower segments spotted lemon-yellow. The perfume is most delicate. Its cultivation is the simplest, requiring only to be potted in October, to be watered sparingly at first, placed in a sunny window and watered more as growth progresses. When out of flower, store in some place and repot at proper season in fresh soil for another year's growth. Six fine selected bulbs for 15 cents; twelve for 25 cents.

WHITE FREESIA (Purity)—A grand Freesia. Flowers which are snowy-white, of large size, are borne in great profusion on long stems, which grow upright and stiff; are excellent for cut-flower purposes. Price, 4 cents each; six for 20 cents; 35 cents per dozen.

Iris—Flowering Flag.

IRIS

FLOWERING FLAG—FLEUR-DE-LIS

Hardy spring and summer-blooming plants, bearing large, rich and various colored flowers. The tubers or bulbous-rooted kinds do not require a rich soil, but a sandy loam will suit them well. The English and Spanish varieties should be planted out in clumps where they may be seen to advantage. The crown of the bulb must not be more than three inches below the surface.

English Iris

Our collection embraces a full range of color, from a very deep purple to a very pure white. Mixed. Price, two for 5 cents; 25 cents per dozen.

Spanish Iris

This variety is well adapted for pot culture, blooming in the winter earlier than the above, but smaller; beautiful shades of violet, yellow, blue and white. Mixed varieties, three for 5 cents; 15 cents per dozen.

Turkish or Turban Ranunculus

For beauty and grace of form and brightness of colors the Ranunculus is unsurpassed. These attractive qualities have made it a prime favorite. The Ranunculus require careful culture, and are worthy of it. The plants should not be exposed to a hot, dry air, nor to a blazing sun. The soil should be rich and not too dry, and yet well drained. Price, 2 cents each; 20 cents per dozen.

Sparaxis

Resembles Ixias, but flowers are more drooping, opening flatly. Their combination of beautiful and unusual colors is fascinating. The individual flowers are very large, and the brilliant colors are striped and splashed in every imaginable manner. Fine mixed, all colors, three for 5 cents; 15 cents per dozen.

Allium and Triteteja.

ALLIUMS

Allium Neapolitanum—Another excellent variety for winter flowering, now extensively forced by florists for cut flowers, being of pure white with green stamens, borne in large, loose umbels. Height, 15 to 18 inches. Price, three for 5 cents; twelve for 15 cents.

Triteleja Laxa

A most valuable addition to winter flowering bulbs for house culture. Several bulbs can be planted in a four or five-inch pot; each will send up numerous flower stalks, producing exquisite, star-shaped blossoms; beautiful dark blue. The flowers follow each other successively, and a pot or basket of these bulbs presents a lovely blooming appearance all winter. This variety is also entirely hardy; can be planted in open ground, blooming in spring. Fine bulbs, two cents each; 20 cents per dozen.

Fritillaria Meleagris

(Guinea Hen Flower)

Singular dwarf spring-flowering plants, bearing large, pendent, bell-shaped flowers of various colors, yellow, white, black, purple, striped and splashed and checkered in the most curious way. They are invaluable for pot culture and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation. Mixed varieties, 3 cents each; 30 cents per dozen.

GREAT SURPLUS BULB COLLECTIONS

Sent Only After November 10th.

In importing enormous quantities of bulbs from Holland, France, China, Japan, Bermuda, etc., we find it impossible to estimate what the exact demand will be, and to order just the right quantity of each variety, so that we usually have a surplus of many varieties, including the very choicest and most expensive. As they cannot be kept over, we must close them out at the end of the season, and offer them to our patrons in collections, strictly of our own selection, at a big sacrifice rate.

These collections may be ordered at any time, but will not be sent until the rush of trade is over, about November 10.

Surplus Bulb Collection No. 1.— For 50 cents, postpaid

This will consist of a very generous lot of miscellaneous bulbs, of many times the value of price asked, and will be sent by mail, postpaid for 50 cents.

Surplus Bulb Collection No. 2.— By Express, not prepaid, for \$1

This will contain a larger proportion of the heavier and more expensive bulbs, of the finest varieties, and will be worth far more than the price asked for it. If express shipment is not desirable, send 25 cents extra for postage.

Either of these Collections will agreeably surprise and please you.

Our "Giant" Collection of Large TWO-YEAR-OLD EVER-BLOOMING ROSES

For Immediate Effect

THESE large Roses have become so popular among our customers that we devote a great deal of room to them, growing them in constantly increasing number. These bushes are two years old, strong and healthy. They make, of course, more of an appearance from the first than does the smaller stock, having practically a year the advantage in all respects—an advantage for which we find many persons willing to incur the additional expense.

The selection must be left to us, and we will send only strictly high-grade Roses. All will be different and all correctly labeled.

GIANT COLLECTION NO. 1—Seven two-year-old Ever-Blooming Tea Roses, all different colors.....\$1.00

GIANT COLLECTION NO. 2—Seven two-year Hardy Ever-Blooming Roses, all different colors.....\$1.00

WE WILL SEND THREE DIFFERENT VARIETIES OF LARGE TWO-YEAR-OLD ROSES FOR 50 CENTS, BY MAIL.

IMPERIAL ROSE COLLECTION

16 Ever-Blooming Tea Roses for \$1.00

Fine plants from two and a half inch pots (postage prepaid).

THEY are suitable for flowering in pots in the house during winter, and then in spring plant out in the garden, where they will continue to bloom all summer. If you do not desire them for house flowering, they can (at least in southern latitudes) be planted out in the flower border and covered over lightly with straw, evergreen boughs or any light material, to be removed in early spring. This will give you flowers much earlier than if you waited until spring to plant. This collection is strictly of our own selection, and we guarantee them to be well-rooted, to reach you in good condition, and to be a fine assortment of colors, all correctly labeled. Many of our very best varieties will be included in the collection.

A Word About Express Charges

Some florists are offering to prepay express charges on certain orders, but when so sent the soil is removed from the roots of the plants, and they are packed the same as for mail, the cost of sending being no more than it would be if the plants were sent by the United States mail. We are willing to send any plant order by prepaid express, at your request, provided you are willing to have the plants come to you without soil and that your selection is made strictly in accordance with our Mail Rates. All plants, except dormant stock, that we send by express, charges to be paid by the purchaser, are packed with ball of soil on the roots, thus insuring their uninterrupted growth when received. We pack as light as possible consistent with safety, and our customers have the benefit of from twenty to thirty-three per cent. reduction from regular merchandise express rates.

INDIVIDUAL ORDERS ARE ALLOWED THE SAME RATES AS CLUB ORDERS

HOW TO SEND CLUB ORDERS—Keep each purchaser's order separate, giving his or her full name, with the amount of the order. Then make your selection of the amount due you, naming plants desired as your discount.

HOW WE PACK OUR CLUB ORDERS—Each person's plants will be packed separately with his or her name attached, so you will have nothing to do but deliver bundle. If the plants are to be sent by mail and you desire them to be sent direct to the person, we will do so when their order amounts to \$1.00 or more.

IF PLANTS ARE TO BE SENT BY EXPRESS, ALWAYS MENTION BY WHICH EXPRESS COMPANY YOU WISH THEM SENT

ROSES ROSES ROSES

That Grow and Bloom

Superb Collection of EVER-BLOOMING HYBRID TEA ROSES

OWING to limited space in fall catalogue we cannot enumerate and describe as many varieties of Roses as we do in spring. We can, however, furnish all Roses mentioned in our spring catalogue. The demand for Roses during the autumn months is largely confined to house culture during the winter. In the spring they may be transplanted in the open ground, where they will continue to bloom throughout the summer. Fall planting of Roses in open ground is only recommended for the Southern and Pacific Coast States, where the fall and winter is the most favorable time for all kinds of outdoor planting. The kinds here offered are especially recommended for these localities.

Antoine Rivoire Creamy-white, with rainbow tints; grand.

Bessie Brown Color is snow-white, faintly flushed and tinged with pink; fine, strong grower.

Burbank Perfectly hardy. The flowers are double, of fine form, nearly three inches across. The color is a deep rose-pink, shading to a beautiful soft rose at the center.

Champion of the World Color rich glossy-pink, delightfully fragrant, and such a strong, vigorous grower that it is almost invulnerable against attacks of insects.

Etoile de France A splendid new red Rose. A very strong, vigorous grower, with handsome green-bronzy foliage, and exceedingly free-flowering. The flowers are very large, and borne on good, long, stiff stems; color a lovely shade of clear red-crimson velvet.

Gruss an Teplitz The color is brightest scarlet, shading to deep, rich velvety-crimson. It is very fragrant. The freest grower and the most profuse of any ever-bloomer.

Helen Gould The flowers are full and perfectly double, the buds beautifully made—long and pointed. The color is warm rosy-crimson. A Rose for winter blooming indoors in pots or boxes.

Helen Gambier Great yellow garden Rose. Very free-blooming, flowers of splendid substance and a delightful shade of deep, rich golden-yellow. In extreme heat comes a deep amber color. The buds are full and firm, lasting a long time when cut.

Kaiserin Augusta Victoria Color pure creamy-white; far surpasses any other white Rose; rich perfume.

Mme. Abel Chateney Grand bedding Rose, as it is a profuse and continuous bloomer. Flowers large and full, petals recurve and of a beautiful creamy-rose, shaded rose-vermilion and tinged with salmon. The base of the petals is very highly colored. Flowers borne on long stems.

Mrs. A. R. Waddell A strong, rampant grower with foliage that is ornamental in itself; buds long and pointed, rosy-scarlet, opening coppery-salmon; large and semi-double, but a wonderful keeper. One of the showiest Roses extant.

Madame Jennie Guillemot Deep saffron - yellow, buds long and pointed and very large in size; one of the best.

Madame Jules Grolez (Red Kaiserin.) From exquisite bud to the full shapely flower, this new Hybrid Tea Rose is superb. Color soft china rose, passing to clear satiny-pink.

Mme. Melanie Soupert A good grower, quickly forming a well-branched bush; foliage bronzy-green, flowers very large, almost full and globular; immense cupped petals; color golden-yellow suffused bright pink. An extraordinarily fine Rose, promising to force readily, as the growths are slender, stiff and freely produced.

Meteor A rich, dark velvety-crimson, ever-blooming Rose, as fine in color as the best of the Perpetuals. The flowers are of good size, double and perfect in shape.

President Taft There have been two Roses sent out under this name, a red variety from Europe without merit, and the one we here describe. This Rose was raised in Cincinnati, the home of President Taft. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant.

Champion of the World.

Pink La France No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals; hardy beyond question.

Radiance Color a brilliant rosy-carmine displaying beautiful opaline-pink tints in the open flower. The form is fine; flower large and full with cupped petals. A fine variety, especially on account of its value as a summer cut flower variety. Very free in growth and production of bloom, has good habit, and the lasting qualities of the flowers are wonderful. Extremely clear.

Rhea Reid A Rose of the type of the American Beauty, but of the easiest culture. In color it varies with the temperature, in summer a bright cherry-rose, while in winter it is a rich crimson-scarlet.

Red La France Color a rich, deep, even pink throughout. The growth of the plant is vigorous, the habit good and the flowers, which are thrown up well above the foliage, are produced very freely.

Rosemary A beautiful Rose of shining silvery-pink, recommended for bedding; very large and very double. A sturdy grower with stiff stems and large foliage. Flowers freely produced.

DOUBLE FLOWERING GERANIUMS

PRICE, 8 CENTS EACH; ANY SEVEN FOR 50 CENTS.

WE know of no plant that will give better satisfaction or is better adapted to house culture than the Geranium. To obtain good plants for winter flowering they should be grown in pots during the summer. This all of our customers have not been able to do, as plants purchased in the spring were for bedding purposes. We have grown this summer several thousand plants in pots that are now just ready for winter flowering. In the house keep the plants as cool as possible, and give plenty of air. Sprinkle the leaves frequently, and keep them as free from dust as possible.

BERTHA DE PRESSILY—Absolutely the only double pure delicate pink Geranium that does not fade in summer. One of the most free and continuous bloomers, the flowers of a well-grown plant completely covering the foliage.

FIRE BRAND—Color a dazzling flame scarlet, fine, prominent truss, flowers large and of great substance, an excellent bedder and pot plant.

HUBERT CHARRON—Beautiful semi-double flowers, pure white, with a reddish-carmine band around each petal, frequently delicately mottled throughout the whole flower. Excellent as specimen pot plants or for summer bedding.

JOHN A. DOYLE—A strong, vigorous grower, throwing its truss up well above the foliage; of enormous size and of the richest brilliant vermilion-scarlet.

JEAN VIAUD—Of a beautiful clear, rosy-pink color with distinct white blotch at the center. The plant itself is a rapid, vigorous grower, yet compact and shapely.

LA FAVORITE—La Favorite is a pure double white Geranium, as free flowering as the single varieties, and which can be used for planting in beds for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for winter forcing.

MME. JAULIN—Has been pronounced the finest of all the delicate pink or blushed varieties. Plant is of dwarf but robust habit of growth, flowers of good size and very abundant. Center of flower delicate pink, outside pure white. A decidedly attractive variety.

Most Beautiful of all Decorative Plants For the House and Conservatory

No plants are easier to grow or more ornamental for house or conservatory culture than these grand new Ferns. They require very little care or attention, are not troubled with insects or diseases, and produce a finer effect than any other plants you can get for many times their cost. The varieties listed herewith include the newest and most beautiful sorts to date. The ordinary temperature of the living room suits them nicely, and their new growths will soon surprise you with their graceful beauty.

SPECIAL OFFER

Any of the following Ferns in nice young plants, 10 cents each, any six for 50 cents. Strong four-inch pot specimen plants, 35 cents each, any four for \$1.00.

Nephrolepis Elegantissima

A sport of the popular *Nephrolepis Piersoni* Fern. Much more beautiful, and an improvement over the *Piersoni*. Is more dwarf and compact, the fronds broader and only half the length. The small size pinnae, or leaflets, are subdivided into perfect miniature fronds; the side pinnae stand at right angles to the midrib of the fronds, on edge instead of flat, giving both sides of the main frond the same beautiful appearance. It is impossible to conceive of the beauty and grace of this wonderful Fern from description—must be seen to be appreciated.

Nephrolepis Whitmani An improvement on the *Nephrolepis Elegantissima*, with still more gracefully divided pinnae, giving the whole plant an airy, lace-like appearance; makes beautiful symmetrical plants even in small sizes, and large specimen plants are beautiful beyond description.

Nephrolepis Elegantissima Compacta.

Nephrolepis Elegantissima Compacta

A dwarf form of *Nephrolepis Elegantissima*, making dense, bushy, compact growth of ideal habit and shape. It forms a round, symmetrical, compact mass of foliage. One of the most valuable Ferns.

Nephrolepis Scotti Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully, and are not as long and coarse as the Boston. It is a rapid grower, and to see it in all stages of growth from a runner in the bench to a fourteen-inch pot specimen will convince you that it will be in great demand as a house Fern.

Boston or Fountain Fern.

Nephrolepis Scholzei.

Nephrolepis Scholzei (The Plumed Scott Fern)

—It is a sport from Scotti, possessing the merits of that most popular variety, but with the pinnae subdivided, giving it an airy feathery appearance. The fronds, like in Scotti, stand erect, with a graceful arch forming a plant of ideal shape, and they never break down, giving the plant a ragged appearance as is so often the case with other plumed forms; furthermore, the loose, elegant arrangement of the fronds, allowing a free circulation of air through the foliage, prevents the center of even the largest specimen from becoming defective or yellow. The smallest salable plants perfectly express the type, and in every size are models of beauty for table decoration.

Nephrolepis Exaltata Bostoniensis (The Popular Boston Sword Fern)

—In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern.

Adiantum Cuneatum.

We have grown a large quantity of small Ferns suitable for Fern dishes. The use of ferneries as ornaments for the dinner table is now very general. Nothing makes so fine an ornament, or is so well adapted for the purpose.

Cyrtomium Falcatum (Holly Fern.) We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is coarser than the Tremula Fern, it is very graceful and is becoming very popular. The leaf is a rich, glossy-green, and each leaflet is about the shape and size of a Rose leaf. The fronds are fine for cutting on account of their lasting quality.

Their lasting quality when cut is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Fern in grace, fineness of texture and richness of color. Price, 10 cents each, three for 25 cents; large plants in four-inch pots, 25 cents each.

Asparagus Sprengeri.

The Charming Decorative Plant ASPARAGUS SPRENGERI

Camellia Japonica

(The Royal Plant.) The royal family of greenhouse plants. Leaves glossy-green; flowers of the most exquisite beauty and waxy texture. From pure white to crimson in almost endless variegation. The pure white ones are generally prized above the colored varieties. Their culture is nearly related to that of the Azalea, but their success is more certain. Requires shade and moisture throughout the hot season. Their time of blooming is winter and early spring. Requires a moderate and uniform temperature with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. Lilium Candidum

The old-fashioned pure white garden Lily, also known as Annunciation Lily. One of the hardiest. Flowers snow-white, with heavy yellow stamens and sweetest fragrance. It bears from five to twenty blossoms. It must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early flowering. The bulbs are sometimes kept in cold storage for spring sales, but never do quite as well. The prices are lower than for many years, and bulbs very fine. Customers will do well to plant a bed of twenty-five or more for a permanent bed or border. Price, 20 cents each, three bulbs for 50 cents.

Lily of the Valley

The Lily of the Valley will thrive in any soil and throw up its beautiful, modest, fragrant white bells in the out-of-the-way nooks, the shady spots, the neglected corners, where bolder and more ambitious flowers would scorn to bloom. Will also adapt itself to pot culture in winter, its delicate, permeating fragrance making it especially desirable. They are also forced in immense quantities by florists, but they are most charming when grown in large patches, in partially shaded localities around the lawn near the borders of streams, lakes, etc., being perfectly hardy. Price, 5 cents each, 35 cents per dozen, \$2.00 per hundred.

Peonies today show a wonderful improvement over former years. Culture.—They will grow anywhere, reasonably speaking—though they do best in rich, deep soil and a sunny position, but thrive well in partial shade. Plenty of water during the growing season is an added stimulus. They are perfectly hardy, require no protection and are not troubled with insects or disease.

Choice Selection of Double Peonies

CYTHEREE—White with center petals, edged with carmine.

CONSTANT DEVRED—Flowers very large and full; rosy-crimson with very dark shadings and glossy texture. Extra fine. Late.

Felix Crousse fills the bill. A rich, even, brilliant ruby-red, exceptionally fiery, bright and effective; very large, full bell-shaped bloom. We place this in the front rank of red Peonies. * Price, 40c each.

Price, 40 cents each.

MARIE LEMOINE—Color, ivory-white. Blooms of gigantic size. Fine cut flower variety. Comes after Festiva Maxima and is as fine as that standard sort.

MADAME CALOT—A wonderfully free white blooming Peony, the flowers overlaid with delicate blush. Fine for cut flowers.

MONSIEUR CHARLES LEVEQUE—Delicate soft lilac-pink. Exquisitely beautiful.

MEISSONIER—Very brilliant crimson. In some cut flower markets known as the American Beauty Peony on account of its resemblance in color to the Rose of that name; good cut flower variety.

MONSIEUR KRELAGE—Deep currant-red with amaranthine center. The French growers evidently spilled their paint pot after producing this superb variety as there is nothing in Peonies of its color. Large, flat flowers as big as a plate, perfect in outline, grand in every way.

MADAME BOLLET—Large, very double flowers; clear rose with white reflex, lingulated with carmine; late bloomer.

MODEL OF PERFECTION—Well named Model of Perfection; guard and collar light violet-rose with shades of flesh-pink, marbled and veined with bright rose, silver tipped, deepening in the center; profuse bloomer.

Fruits will not be shipped with other plants.

FALL PLANTING—Some object to fall planting, but it has been fully demonstrated that there is no better time in the whole year to plant fruit than October, November and December. Our Shipping Season for Nursery Stock Opens About October 10th. ALL FRUITS MUST BE SENT BY EXPRESS, UNLESS OTHERWISE STATED

When offered by mail, postage is paid by us; if by express or freight, charges are to be paid by purchaser; but larger stock will usually be sent.

Price per hundred or thousand will be given on application.

TREES BY MAIL—We have a choice lot of small one-year-old trees suitable for mailing to our customers in distant states, thus saving them heavy express charges. We know many will avail themselves of this opportunity of getting trees who could not otherwise do so.

FORCING RHUBARB FOR WINTER USE

This is a new and profitable industry. You can utilize your cellar this winter and make a space 10x10 feet pay your coal bill. We offer Rhubarb roots especially grown for forcing. There is no secret about forcing them. Simply pack them in boxes or on the cellar floor, and cover lightly with soil. The temperature of the ordinary cellar will force fine crisp stalks that sell at a fancy price. Two to four cuttings can be made in one winter. A dark room is preferable to light. Plant in early November. Fine large roots for forcing, 20 cents each; \$2.00 per dozen; \$10.00 per hundred, by express or freight only.

BRIGHTON (red), WYOMING (red), NIAGARA (white), CHAMPION (blue), CONCORD (blue), MOORE'S DIAMOND (white), MOORE'S EARLY (blue), WORDEN (blue).

Our price is so low that everyone buys them. It is the most liberal fruit offer we ever made. Send order at once. ST. REGIS EVER-BEARING RED RASPBERRY

Actually bears the first season planted.

St. Regis.

Plants of St. Regis planted in early April gave ripe berries on the 20th of June of the same year. For four weeks thereafter the yield was heavy and the canes continued to produce ripe fruit freely without intermission until the middle of October. The berries were large and beautiful, firm and full flavored, to the very last. St. Regis is the only Raspberry, thus far known, that will yield a crop of fruit the season planted. Price, 10 cents each; \$1.00 per dozen, by mail, or \$4.00 per hundred by express.

NEW RASPBERRY, HAYMAKER—The Haymaker is a purple cap. It is a berry to grow for either home use or market. So much of a favorite has the Haymaker become that local growers have said that it has ruined the sale of other varieties. Very popular as a canning berry. Price, 10 cents each; \$1.00 per dozen, postpaid.
